

ECOCEPTOR LLC

CAPABILITY STATEMENT

Ecoceptor LLC is a breakthrough technology development company with a strong passion to provide solutions that make a positive and profound impact for our Country. We are a patriotic company that is eager to promote National Defense objectives through engineering superior military systems.

Core Competencies

Fuel Efficiency Improvement of all combustion systems
Propulsion Technology Enhancement
Electrical Energy Storage & Revectoring
Specialized Power Management Systems

Electronic Circuitry Design & Development
Automated Software Controls & Programming
Network Engineering & Troubleshooting
Investment Portfolio Modeling & Consultation

Differentiators

Experts in Combustion Efficiency for all: engines, generators, turbojets, turbofans, turbines, furnaces
Innovators in Electrical Energy recapture, storage and re-vectoring to multiply effective power
Pioneers of Plasma Energy Infusion with proprietary cost effective technology
Holders of several patents and originators of multiple publications
Creators of training programs for implementation of innovative automotive technologies

Past Performance

35+ Years of Combustion Efficiency Development
20+ Years of Federal Contract Management
Engineering & Acquisition of 6 Utility Patents
4+ Years of Global R&D Consultation

15+ Years of IT Network Design & Diagnostics
10+ Years of Website Creation & Management
25+ Years of Financial Investment Analysis
Publication of 5 Technical Theses & Books

Company Information

State Of Incorporation: Indiana

Year Formed: 2015

NAICS:

541715 Research and Development in the Physical, Engineering, and Life Sciences

541330 Engineering Services

541519 Computer Related Services

541690 Scientific and Technical Consulting Services

541990 Professional, Scientific, and Technical Services

SDVOSB (verification forthcoming)

CAGE: 12LH7

UEI: WKUPNKJLQKD4

Key Words: Energy Efficiency, Fuel Efficiency, Propulsion Efficiency, Energy Management, Energy Storage, Automated Controls, Software Programming, Increased Range
